

To whom it may concern,

I am writing this letter to highlight Brock Wedsworth's community involvement with the City of Burlington. Over the past few years Brock worked as a Senior Skate Patrol for the Recreation, Community and Culture department for the city. Brock was responsible for the overall coordination of ice safety and related activities during various drop in skate programs. Creating great public relations and building a strong rapport with community residents. Brock is exceptionally responsive to his duties and can interpret even the most complex instructions. He is a resource for the people on and off his team.

Brock came to the Recreation, Community and Culture department with minimal experience. However, in the past two years he has demonstrated a strong ability to learn quickly the information and skills he required to be effective in the performance of his duties. Most recently this was displayed during the Covid-19 pandemic. The overall operation of our programs changed to follow Federal, Provincial and Municipal health units. Brock did an amazing job following all health and safety protocols and supporting other staff along the way.

Brock works very well with his team mates and supervisors. Personally, I have always found Brock very mature, professional and hard working. He always has a positive attitude when at work and is an amazing group leader.

Should you have any further questions please feel free to contact me.

Kind regards,

**Andrew Koutsaris**
